Social CBD's hemp derived products contain 0.0% THC (no high) and are tested by a third-party accredited lab at multiple stages of production. We select based on our fundamental principle of purity. All Social CBD products are checked for CBD potency and the absence of:

- > Solvents
- > Heavy Metals
- > Pesticides
- > Microorganisms
- > THC

We believe in creating trust through transparency. All test results are available online using the QR code and product lot code found on every box.
